

Sophisticated Brilliance

IN ARCHITECTURAL GLASS BATH ENCLOSURES

TRANSFORM YOUR SHOWER & BATH

We create all forms of custom shower and bath enclosures. To accommodate the size of your enclosure, we install doors with panels in the following formats:

- Door & Side Panel
- Panel/Door/Panel
- Door & 1 Panel
- Door & 2 Panels
- 90 Degree Return Panels

These doors come in 3/8" and 1/2" tempered glass and can be designed in any order to result in the smoothest operation of the bathing experience. A careful balancing of size and space will enhance the attractiveness of your room.

So visit our Online Showroom, browse around and discover the myriad of ways structural glass can enhance your home or business. All of us at American Frameless look forward to making your ideas in glass a reality!

Imagine your shower & bath with free-floating architectural glass, hung without conventional hardware and rail devices for an elegant look & custom fit.

SERVING CT & NY HOMEOWNERS, CORPORATE & COMMERCIAL CLIENTS FOR OVER 50 YEARS.

Our architectural glass designs make bathrooms look much larger.

We assign a brilliant team of designers & installers to every project.

We use the finest materials and state-of-the-art equipment.
